EDUCATION

Siddhant College Of Engineering, Sadumbare Information Technology (IT) Bachelor of Engineering (BE) <i>CGPA: 7.19</i>	Sadumbare, Pune 2021 - 2025
Saraswati Vid,Telgaon Science Higher Secondary Certificate(HSC) <i>Percentage: 81%</i>	Telgaon, Beed 2019 - 2021
New High School Kari Science Secondary School Certificate(SSC) <i>Percentage: 73%</i>	Kari, Beed 2018 - 2019

EXPERIENCE

Qspiders, Wakad Trainee Full Stack Web Developer	Wakad, Pune Jul 2025 - Jan 2026
Hands-on experience in designing and developing full stack web applications using technologies like Java, Spring Boot, MySQL, Angular, HTML, CSS, JavaScript, and Bootstrap. Skilled in building responsive frontends and robust backend APIs, integrating databases, and deploying user-friendly solutions. Proven ability to work on end-to-end project development with a strong focus on clean code, collaboration, and continuous learning.	

SKILLS

Programming Languages:	Core Java, Javascript, SQL
Libraries/Frameworks:	Spring, Spring Boot, Hibernate, JSP, Servlet, React.js
Tools / Platforms:	Eclipse, Visual Studio Code, Git & GitHub, Postman
Databases:	MySQL, PostgreSQL (Basic), SQL Queries & Joins

PROJECTS / OPEN-SOURCE

Employee Management System Link	<i>Java, Spring Boot, REST API, MySQL, JPA, Postman</i>
Developed a backend-based Employee Management System to manage employee records efficiently. The application provides RESTful APIs for creating, updating, viewing, and deleting employee details. Implemented validation and exception handling to ensure data consistency and reliability. Integrated MySQL database using JPA and Hibernate for seamless data persistence and tested APIs using Postman.	
Bank Management System Link	<i>Java, Spring Boot, Spring Security, JWT, MySQL</i>
Designed and developed a secure Bank Management System with authentication and authorization using JWT. The system allows users to register, log in, manage accounts, and perform banking operations securely. Followed a layered architecture (Controller, Service, Repository) for clean and maintainable code.	
Eelectronic Product Comparison Website	<i>React, Java, Spring Boot, REST API, MySQL</i>
Built a backend system to compare and rank electronic products by combining objective product specifications with subjective user reviews. Implemented ranking logic inspired by Prospect Theory to reflect real consumer decision-making behavior. The system helps users choose optimal products based on comparative analysis.	

CERTIFICATIONS

- Full Stack Development Certification - Qspider, Wakad.
